at

Warnemünde/Baltic Sea

**Deadline Entry participation DLRG Cup 2018:
June 29, 2018 (11:59 pm)**

**Entries will be published on July 03, 2018
Changes of incorrect entries within the next 7 days**

1. **Official organizer/Organizing body**

Organizer and manager of the 22nd International DLRG Cup is the 'DLRG-Service GmbH' (DSG) in cooperation with the 'Deutsche Lebens-Rettungs-Gesellschaft e.V. (DLRG)'.

2. **Eligibility**

Eligible are club teams of the DLRG and the national teams of full members of the International Life Saving Federation (ILS) (only one team per organisation is accredited).

These teams consist of minimum one (1) and maximum ten (10) competitors. Maximum five (5) of these ten competitors have to be female or male participants.

Each competitor has to be born before July 19th, 2002 and must have a medical certificate not older than twenty-four (24) months and a member certificate of the respective national organisation.

3. Security procedures

The used equipment must be in the condition that every injury and danger is eliminated for the participants. Wetsuits should be worn at water temperatures below of 16° Celsius. **Wearing security lycra vests in pink is obligatory.**

If the event has to be stopped by the organizer due to outside influences (weather conditions) on security reasons, the use of the competition area is prohibited also for individual training! With registration to the DLRG Cup, all participants accept that an inobservance will lead to disqualification!

4. Venue

The competitions of the DLRG Cup 2018 will be held on Thursday (July 19th), starting at 1 pm, on Friday (July 20th) and Saturday (July 21st) starting at 8.00 am at the beach area in front of the "Teepott" building and the lighthouse.

5. Events of the 22. Int. DLRG Cup 2018

The competitions will be held according to the international rules of the ILS „International Competition Rulebook 2015-2019 Edition, revised 2017. (Change of distances, parallelism of disciplines etc. is possible.)

The following events will be held in heats, semi-finals and finals (for women and men):

women					men	
		heats	semi finals	Finals		
Surf Race	1		•	•	Surf Race	1
Board Race	1	•	•	•	Board Race	1
Surf Ski Race	1	•	•	•	Surf Ski Race	1

Rescue Tube Rescue	4		•	•	Rescue Tube Rescue	4
Oceanwoman Relay	4		•	•	Oceanman Relay	4
Ocean Lifesaver Relay	2		•	•	Ocean Lifesaver Relay	2

Event - explanation :

Surf Race (Laufen-Schwimmen-Laufen):

The competitors start at the line at the water's edge and run and swim a course of ~ 600 m.

Board Race (Rettungsbrettwettkampf):

The competitors start with their boards from the line at the water's edge and surround a course of ~ 600 m.

Surf Ski Race (Rettungskajakwettkampf):

With surf skis the competitors have to pass a course of ~ 700 m.

Oceanwoman, Oceanman (Rettungstriathlon):

The competitors have to complete the course of Run-Swim-Run Race, Board Race and Ski Race. The order of these three events will be drawn by lot before the competition starts.

Beach Flags:

The competitors lie face down with shrunken arms in the sand and with their toes at the starting line. With start signal they get up as quick as possible and try to get a baton (beach flag). There are less batons than competitors, so the one who fails to gain a baton is eliminated from the competition. This will be continued till only one competitor is left.

Beach Sprint (Strandsprint):

The competitors run a course of ~ 90 m, wearing their allotted vests.

4 x 90 m Beach Relay (4 x 90m Strandsprint):

The competitors run a course of ~ 90 m, wearing their allotted vests. The relay will be realised as shuttle race with baton.

Board Rescue (Retten mit Rettungsbrett):

A 'patient' and a rescuer of each team are at the starting line. At a signal the 'patients' swim to their allotted buoys and signify their arrival at the buoy. On receiving this signal the rescuer paddles with his board to his 'patient'. In the pick up area (the seaward side of the buoy) the rescuer gets his 'patient' up on the board. Both together return to the finishing line, while they always have to be in contact with the board.

Rescue Tube Rescue (Retten mit Gurtretter):

The team consists of four persons - a 'patient', a swimmer and two rescuers. At a signal the 'patients' swim to their allotted buoys and signify their arrival at the buoy. On receiving this signal the rescuer take his fins and swims with his rescue tube to his 'patient'. In the back of the buoy the 'patient' will be clipped into the rescue tube and the swimmer pulls him back to the beach. At this moment the rescuers are permitted to enter the water and to assist the rescue tube swimmer to bring the 'patient' back to the beach. The rescuers have to drag or carry the 'patient' over the finishing line.

Oceanwoman/ Oceanman Relay (Gemischte Rettungsstaffel):

One of the four participants of each team competes in the Run-Swim-Run Race , one in the Ski Race, one in the Board Race and one in the Beach Sprint. The order of the events will be drawn by lot before the competition starts.

Ocean Lifesaver Relay:

Is a variation of the Oceanwoman/Oceanman Relay (mixed team, 2 female, 2 male athletes). All conditions and rules are the same as in the Oceanman Relay, except the order of the disciplines is fixed with run-swim-run, board race, ski race and beach sprint. The several disciplines will be chosen by lot to the gender.

The organizer is allowed to change order of events and starting times anytime. The schedule is only a guideline. Decisive are the disciplines and times which are declared by the speaker at the team manager's meeting at day of competition.

To guarantee a smooth course, all team managers are asked to be at the meeting point at the (in advance) published times or when the team manager's meeting is called out. Please notice that only team managers and coaches should be present at the meetings.

7. Classification DLRG Cup 2018

Individual events:

The best three single competitors get medals.

Relay events:

The best three teams get medals.

“Three individual events” classification (women and men):

This is a separate classification. Each competitor is regarded as an individual starter.

The points of the best three (3) individual events of a competitor are added up.

However each competitor can at most report for four (4) individual events.

The best three competitors will get medals and the winner female and male will get a cup.

DLRG Cup - Classification

The best four (4) female and four (4) male competitors of each team in the “three individual events” are added up, plus the points of the three best relays (male and female), plus the points of the Ocean Lifesaver Relay. Each team can only report with one (1) team (male and female) for the relays.

The best three national teams of the DLRG Cup classification will get cups.

8. Equipment

Competition equipment (e.g. Rescue Tubes) are placed at the competitors disposal.

Also a small number of boards, rescue skis and paddles are available for the competitors, but only at the days of competition, and without any claim to definite materials out of this equipment pool. It is not possible to start at a later heat, semi-final or final if equipment pool is empty. The equipment pool is available only for competition.

The charge for renting one of the materials is 5,- EUR each, the deposit money is 50,- EUR each. The borrowed equipment is only available on competition days and has to be returned directly after each respective heat. In case of non-compliance the organizer may deduct a part of the deposit.

Competitors are permitted to use own equipment if it is scrutinized by the judge.

To stay in time with the timetable of the DLRG Cup we point out, that the events will partially run to parallel. That also means, there is no possibility to wait, if a competitor can't get the competition equipment in time.

The organizer informs the participants that there possibly will be a scrutineering of the equipment (randomly).

The organizer reserves the right to brand the equipment (also the scrutinized equipment).

The participating teams are not allowed to show their own sponsors, when they are in concurrence to the event-sponsor. Therefore the participating teams have to notify their sponsors by email to the DSG, dsg@dlrg.de. In case of non-compliance, the organizer may withdraw the eligibility to start till end of competition.

Lycra vests

Every competitor has to wear a pink lycra vest. International teams can use their own lycras, when they are pink coloured, or they can be provided by DLRG-Materialstelle at beginning of the season, some lycras will also be offered in Warnemünde in the organisation office.

The competitors also have to wear their (own) team-caps, which are to be fixed under the chin, at each event.

Trailer, Boards, Skis and Tents

There will be a marked area for the competitors` equipment and/or trailer. Please use only these areas and bring boards and skis which are not in use away from the competition area.

Trailer and tents have to be signed with a name and a telephone number for reachability.

Tents have to be set up safe within the marked area, please think of the weather conditions, **the team is responsible for the safety.** The organizer assumes no liability for loss, theft or accidental damage for the tents and equipment. To provide enough space for the trailers, boards and skis, we ask all teams to give us the necessary information in advance. **Also we indicate, that it is not allowed to drive at or to the beach. Teams have to bring their trailer and equipment by hand to the storage area.**

Following time sequences are planned for transport of trailers to the beach:

Thursday, July 19: 8.30 to 10.00 am and possibly in the afternoon
Saturday, July 21: till around 4.00 pm
Sunday, July 22: 9.00 to 12.00 am

These data may be changed in case of needs. Significant is the order of the personal at the barrier.
